HON. C. H. E. HARDIN is mentioned as a candidate for Congress on the Democratic ticket. Hardin is a college graduate, a graduate of the law, a practicing attorney, a cattle king, the son of a cattle king and the son-in-law of another cattle king. He represents two of the most prominent and influential families of Nevada, and in business affairs is identified with an industry at least of second importance in this State. Cattlemen would consolidate to elect him; he could command, it is believed, one hundred thousand dollars to promote his election. Fair, it is said, is a friend of Mason and would materially aid his son-in-law's ambition; Mason himself says "Ed. can wait, but if nominated my son-in-law must not be beaten." Colonel Hardin says, "my boy had better attend to his business and let politics alone, but if he gets the nomination we will do all we can to elect him." J. V. McCurdy, Humboldt's mining magnate, says "give us a chance and we will turn all Humboldt loose to elect Ed. Hardin the successor of Woodburn." Not only has Hardin the financial and political backing but he is an orator, he is energetic and capable, anxious to make a name for himself and his family. Never having suffered defeat he carries with him the inspiration that does not surround a candidate once defeated. Let him be whomsoever he will the Democratic nominee for Congress this year is doomed to certain defeat, but let it be remembered, too, that Hardin's candidacy for Congress merits respectful consideration by the Democracy.

The Chairman of the Massachusetts Republican State Central Committee in calling the convention to order yesterday made a neat distinction in welcoming back to the party those Mugwumps who went to Cleveland four years ago as apostles of Civil Service Reform, and now come back with their eyes open and repentant, and in barring out those who made Civil Service Reform a lion's skin to cover a Free-trade ass. He would have none of the latter, because the campaign should be made on the Protection issue and he wanted no traitors in camp.

DELEGATE CAINE of Utah claims that the Mormon Church should be credited with the intention of obeying the laws of the land because the epistle of the acting head of the church to the last General Conference was silent on the subject of polygamy. Silence gives consent. Polygamy is the revealed (?) and accepted doctrine of the church and must remain so until disavowed by authority. If the head of the church were to have a new revelation forbidding polygamy, it might count for something, but his silence simply leaves things as they were.

The same epidemic of lying which has raged so fiercely along the line of the Panama Canal seems to have broken out on the Nicaragua line. Its officials are now busy contradicting reports of sickness among the workmen. Of course there must be more or less sickness among a number of men, especially when engaged in pioneering work, and exaggeration is easy, but the Panama Canal has been pushed right along, despite unfavorable reports, and the Nicaragua enterprise will probably have a like experience.

It is with a great deal of satisfaction that the GAZETTE announces that all differences which have existed among the leaders of the Republican party in Washoe county have been satisfactorily settled and the party will through the coming campaign present a solid front to the enemy. It is definitely settled that Judge Boardman will have an open field for his fight for the Supreme Court and that the name of C. C. Powning will be presented by the Washoe delegation for delegate to the National Republican Convention.

The death of Judge Samuel D. LeCompte recalls the days of "Bleeding Kansas," "Beecher's Bibles," and "Border Ruffians." Judge LeCompte was on the wrong side in that struggle, but he had time enough since to become reconciled to the logic of events.

James Kelly and Thomas McGinnis will languish in the county jail for the next ten days. Judge Young having sentenced the former for indecent exposure and the latter for being drunk and disorderly.

OVER THE WIRES.

THE NEVADA BANK.

A Plan for Its Complete Organization Made Public.
SAN FRANCISCO, April 26.—An important change in the management of the Nevada Bank is now engaging the serious consideration of the principal stockholders. The idea is to enlarge the scope of the business by interesting leading men in local commercial circles. A certain portion of stock will be retained by Flood, Mackay and Fair, and the balance will be subscribed for among the merchants.
SAN FRANCISCO, April 27.—A plan has been made public for the reorganization of the Nevada Bank. A circular has been issued by N. K. Masten, formerly cashier of the bank, and J. F. Houghton, manager of the Home Mutual Insurance Company, in which they propose the following plan: The present stockholders will eliminate and take to their own account all bad and doubtful assets, and assume and pay all liabilities, except amounts due depositors, and will turn over to the new management sufficient good assets (to be approved by a committee of the new Board of Directors) to pay all depositors and cover the full capital stock at par (\$3,000,000), 25,000 shares of \$100 each to be taken by parties outside the present stockholders, payable at par on demand upon which the present officers and directors will resign and a new Board be elected by the new stockholders. Subscription books will be opened on Monday, April 30, for one week only.
Manager Bigelow of the Nevada Bank states as reasons for the reorganization that the three men owning nearly all the bank's stock—J. C. Flood, ex-Senator Fair and J. W. Mackay—cannot give that personal attention to the bank that it should receive, Flood on account of ill health and Fair and Mackay on account of other business.

Attempted Suicide at Denver.
DENVER, April 27.—Ben S. Robbins, Assistant United States District Attorney for Colorado, and formerly a State Senator of Kentucky and a prominent politician of that State, attempted suicide at his room here last night by cutting his throat with a penknife. Robbins had been drinking heavily of late, and at the time he attempted his life was suffering from a slight attack of delirium tremens. It is reported that domestic trouble, together with the refusal of his wife to come to Denver, drove him to drink and the attempt on his life.

Frederick Still Improves.
BERLIN, April 27.—A bulletin issued this morning says the Emperor slept well last night. His fever is very slight, and his general condition begins to improve.
The Emperor rose at noon and walked into the room adjoining his bedroom. The doctors are in hopes that he will be able to drive out on Monday. Queen Victoria visited the museum this morning and spent some time in prayer at the tomb of Emperor William. The Empress and her daughters accompanied the Queen.

Beating a Liquor Law.
DES MOINES, April 27.—The latest device for evading the prohibitory law under the late decision of the United States Supreme Court is the organization of transportation companies, with headquarters in other States and agencies in this State. The object is to put up beer and liquors in bottles and packages of various quantities from a single drink to gallons, to be sent to agents in this State and sold in the original package.

Kilrain Calls John L.
LONDON, April 27.—Jake Kilrain accepts John L. Sullivan's challenge, and will fight under London prize-ring rules either in England or America. If in America, the fight must take place west of the Missouri river. Kilrain's engagements will prevent his meeting Sullivan for the next six months.

Maine Republicans.
BANGOR, Me., April 27.—The Republicans of the Fourth Congressional District this morning nominated C. A. Boudreau for Congress, in place of Fred A. Powers and Benjamin E. Thatcher delegates to the Chicago Convention. The resolutions strongly endorsed Blaine.

TELEGRAPHIC BREVITIES.

—John L. Sullivan was banqueted in Boston Wednesday night.
—The Democracy of Indiana have declared in favor of the re-election of Cleveland.
—Mrs. Leland Stanford is lying very ill of typhoid malarial fever at her residence in Washington.
—It is asserted here that McCaffrey and Jim Smith will positively fight ten rounds in July with the lightest gloves allowed by law.

—It is now said that the President desires to make Ephraim Chief Justice, and send Endicott to England and give the latter's place to Pat Collins, of Boston.

—General San Marzano telegraphs from Massowah that King John has repeated negotiations for the conclusion of peace between Italy and Abyssinia.

—A State Anti-Chinese Convention has been fixed for May 8th next, in San Francisco. Its sessions will be secret, but its important work will be given to the public.
—Dr. E. H. Bryan of San Francisco, for the past two years United States Consul at Lyons, France, has sent in his resignation to Secretary Bayard, to take effect May 31st. Dr. Bryan gives illness as his reason for leaving the service.

—It is stated that the Republicans of Oregon have decided to invite John F. Swift to stump Oregon during May, which is the month of the campaign in that State. The Oregon Senators are delighted that Mr. Swift is to go to that State.

Discoveries More Valuable Than Gold.

Are Santa Abie, the California discovery for consumption, and diseases of the throat, chest and lungs, and California Cal-R-Cure, the only guaranteed cure for asthma, cold in the head and kindred complaints. They are sold at \$1 per package, or three for \$2.50, and are recommended and used by the leading physicians of the Pacific coast. Not secret compounds. Guaranteed by Osburn & Shoemaker.

Why cough and suffer with a cold, when you can get relief by using our Cal-R-Cure, the only guaranteed cure for colds, coughs, croup, whooping cough, and all the kindred ailments of the throat and lungs. Sold by W. P. Finner, all the leading druggists and physicians. The only reliable signature of D. F. Fryer.

Appropriate Names.
"What does S. P. R. R. mean?" asked a tourist as he glanced at the mysterious letters.
"Small Pace railroad, stupid," savagely replied a one-lunged Los Angeles tourist, who had been 88 hours coming up from the City of the Angels.
"Oh, I see," said the other, "and C. P. R. R. must mean Crab Paced railroad," and there was a sound of revelry when the henchmen of the railroad repeated the story to the magnates at Fourth and Townsend streets.

The Fashionably Bred Standard Trotting Stallion

MAJESTY!

DESCRIPTION: Color, dark bay with one white hind foot; 15 1/2 hands high, weighs 1,050 pounds, fine form and action, very gentle disposition, sound in every respect; two years old on the 8th of May, 1888; well broken to drive; has never been trained.

PEDIGREE—Sire, "Sterling," by Egmont, he by Belmont sire of Nutwood, Goldsmith Maid and other fast ones. Dam, Lady Baldwin, by the Moor, dam of Bay Rose, 2:29.

This combination of two of the fastest strains of blood this country has ever produced cannot fail to trot fast, and be one of the most popular breeding stallions to be found. This colt has grown very fast, and is large for his age, but well-proportioned and symmetrical, and has not been worked for speed on account of his rapid growth. He shows enough speed to warrant the belief that he will maintain the high opinion we have of him. The first time he was shown at the California State Fair he took the premium for the

Best Standard-Bred Trotting Colt

In the Sweepstakes. This colt is offered for the sum of \$600, which is lower by 50 per cent. than any colt of equal breeding ever brought that we know of.

A Contemptible Wretch.

The GAZETTE is in receipt of a communication signed by a reputable physician of Reno, which states that a daughter of one of our most prominent citizens had been injured by a runaway accident and was lying at the point of death. Investigation proved that the story was a malicious lie and the physician when shown the letter emphatically stated that he knew nothing of the matter and had never before seen the communication. The letter is now in the hands of the proper authorities and the authorship of the filitious or malicious communication will be ferreted out if possible. If the author is an idiot the Insane Asylum is the proper place for him; if malicious the county jail should furnish him with accommodations for an indefinite period.

THE TRUCKEE.

Dan DeQuille writes of It—Some Plain Truths.

Dan DeQuille has the following in a late issue of the Salt Lake Tribune: Last winter there were those who talked of a boom for Nevada this summer, but it is not at all likely that anything of the kind will be seen. Nevada is not yet ripe for a boom. Before we can expect to see anything like a boom in our lands it will be necessary for our people themselves to show what can be done with them. A movement must be made for the construction of several storage reservoirs in the Sierras on the headwaters of rivers and large streams and ditches; other than little ones for neighborhood use must be planned and constructed. Our people as yet have not made a commencement toward utilizing the water flowing through the channels of the many streams that head in the Sierras. The Truckee river alone affords sufficient water to irrigate an immense area of land not only immediately along its course, but also far to the northward and southward. Thus far the only ditches leading from the stream are those that carry water to lands on its borders, as parts of Truckee Meadows and some tracts of land below Reno.

Where the Truckee river leaves Lake Tahoe it is fifty feet wide, has an average depth of five feet, and has a velocity of six feet a second. This would give a flow of 123,120,000 cubic feet or 923,400,000 gallons in twenty-four hours. This alone is an immense never-failing body of water, for about one hundred streams great and small feed this lake, not to mention a great number of living springs, hot and cold, or many that rise from the bottom of the lake. After leaving Lake Tahoe over sixty creeks of all sizes fall into the Truckee river before it reaches Reno. The more important of these tributaries are all in California and of these the following are those affording most water: Bear creek, Squaw creek, Silver creek, Hard Scramble creek, Donner creek (which carries the surplus water of Donner lake), Cold stream, Prosser creek, Marks creek and the Little Truckee, which enters the main Truckee at Boca. These many large creeks add immensely to the volume of water with which the Truckee begins its course on leaving Lake Tahoe. At its head, at the lake, the Truckee is 6,216 feet above the level of the sea; its mouth, where it empties into Pyramid lake, it is still 4,000 feet above sea-level. The fall of the stream between Lake Tahoe and Pyramid lake is 2,216 feet. Thus it will be seen that there is sufficient elevation at the head to feed ditches a long way to the northward and southward along the eastward slope of the Sierras. At Boca, where the Little Truckee falls in, the elevation is still 5,560 feet above sea-level. But all these places are in California and in the mountains where the ditches would be difficult of construction and costly. At Verdi, however, the stream has crossed the line into Nevada and has entered the head of the valley region. It here contains not only the 923,400,000 gallons (in 24 hours) with which it begins its course, but also the waters of all the mountain streams in its course. At Verdi the Truckee is 4,915 feet above the level of the sea, and 915 feet higher than at its mouth at Pyramid lake. Thus it will be seen that lateral ditches might be constructed that would carry water far to the north and south of the channel of the river itself, the course of which is nearly due east from Verdi to Pyramid lake.

On the headwaters of the Carson river, Walker river and many other streams reservoirs might be constructed and canals dug to lead water far into the interior of the State. Two or three private parties have undertaken to construct reservoirs on the headwaters of the Carson and Walker rivers and their example may induce some others to do so. It is justly called something on a grander scale. It will probably yet be seen that big iron pipes will be laid to carry water across the depression that runs along the base of the Sierras and deliver it in a reservoir on some elevation whence it can be carried to places farther in the interior.

McKinnis' Specialty Company.

A great treat is in store for the music-loving. Next Monday evening Prof. McKinnis' colored specialty company will appear at the Nevada Theater in a unique entertainment. The Professor is in himself a whole band. His musical specialties are new and original, his feat of playing two cornets at once, and also that of playing on six different instruments at one and the same time, being original with him. Taken all in all, the Professor is certainly a musical genius, one who combines a natural ear for music with many years of hard study. His banjo playing is of such high order that he is justly called the King banjoist, while his handling of the violin has earned him the title of the negro Ole Bull. His colored specialty company has been organized for three years, and gives a first-class entertainment.

Oregon Swamp Lands.

A great deal of the land in Honey Valley, Or., has been entered as swamp land and it is claimed the entry is fraudulent, for the land is not for agricultural purposes. These facts are a constant source of trouble between stockmen and would-be settlers, and the settlers have asked Governor Penney to indorse their petition to the Federal Government to adjust the matter.

ODD FELLOWS' CELEBRATION.

The Ball of the Daughters of Rebekah Last Evening.

The sixty-ninth anniversary of the introduction of Odd Fellowship into the United States was observed in a very appropriate manner by the Daughters of Rebekah at Armory Hall last evening. Every preparation had been made by the various committees to make the ball a success and of the large number of people in attendance not one has failed to award them the credit which they so richly deserve for conducting the affair to such a successful termination.

At 9 o'clock the Patriarchs Militant, in full uniforms, accompanied by Odd Fellows of lesser rank, marched into the hall to the spirited music of the Reno brass band, which had been specially engaged for the occasion, and shortly after the signal was given for the formation of the grand march. From that time on until an early hour this morning pleasure reigned supreme, and all departed well pleased with the entertainment afforded. Not the least among the pleasures of the evening was the supper prepared and served under the direction of the Ladies' Relief Corps, who kindly relieved the Daughters of this onerous task.

The following ladies and gentlemen were present: George B. Hyman and Miss Lexie Finlayson, W. Pluniger and Flo. Pluniger, Mr. and Mrs. R. C. Leeper, Mr. and Mrs. P. H. Mulcahy, Mr. and Mrs. John Freese, Mr. and Mrs. Miss Nancy Laughton, Powell Fredrick, Mrs. L. Fredrick and Miss Ray Fredrick, Mr. and Mrs. J. V. Peers, L. J. Cohn and Miss Kate Fellows, H. J. Nevada's Claims Recognized.

For seven years Nevada has, through its accredited agent in Washington, Captain John H. Mullen, been endeavoring to collect from the General Government a claim for moneys disbursed by the State during the war of the Rebellion as well as for moneys owing to and disbursed by citizens during the White Pine and Elko Indian wars. Various claims have been allowed by the Legislature and a special fund provided for that purpose, it being understood that recourse would be had to the General Government for reimbursement. Accordingly these claims have been presented from time to time but without avail until the present session of Congress, when favorable action was taken. Yesterday Governor Stevenson received a draft from Washington for \$23,180.92, as a partial payment of the claims presented.

The Fruit Crop in Danger.

At the present time it looks as if Washoe county, or at least that portion lying contiguous to Reno, was to again be bereft of its fruit crop. The cold spell of the last few nights has probably nipped all the fruit in the bud and unless the indications are wrong, the outlook for a fruit crop is decidedly unfavorable. Last year the same state of affairs existed and Washoe county's output of fruit would hardly have made a decent contribution to a commission house. It is to be hoped that the fears of our fruit-growers are unfounded and that the crop will be such as will warrant a continuance of the business.

The Race for the Shrivility.

The candidates for the office of Sheriff of Washoe county are slowly but surely coming to the front, and it now looks as if at least half a dozen names will be submitted to the Republican Convention for that place on the ticket. There was a time in the history of Washoe county when the office was worth seeking, but now that the rough element and still rougher times are but memories, the office barely offers a decent living. To a man up a tree it looks as if the game was not worth the candle.

SANFOIN.

A Grass that is Peculiarly Adapted to Nevada.

According to the Portland Oregonian, sanfoin is the grass for Nevada. It will survive the coldest winters, and grow luxuriantly without irrigation, and is relished by cattle. The grass goes by various names, but is best known as sanfoin. It is claimed that it thrives in New Mexico and grows most luxuriantly all over the hottest and driest portions of Arizona. Not that it is already spread over the Territories in question, but wherever tried, there and elsewhere in the dry plains and stony ridges of the entire mid-continent, it grows luxuriantly all Summer, and needs no irrigation or cultivation. If the story told in exchanges of the wonderful growth and great tenacity of this plant are in any degree correct, sanfoin will realize all the hopes of stockmen and convert the vast deserts and plains as well as the rocky ranges and burnt districts of Utah, Nevada, New Mexico, Arizona and the Pacific Northwest into wealth-producing countries. The want of such a pasture and forage plant is common to all these territories, and to supply it as claimed will add untold millions to the wealth and value of the national domain.

A SENSATION.

The Great Success of Dr. Prentice—His Work.

A case of wonderful and most remarkable character was reported at the London Clinic to-day, which was the cause of no little discussion among some of our leading specialists. It also demonstrates the rapid advancement of the surgical department of the medical world. The case was reported by an American physician, who for the past few weeks has been assisting and operating here.

The case spoken of above is that of one Chat Roberts of Chat P. O., Lassen county, California, who for ten years has been growing deaf until the hearing in one ear was totally lost. It is said that Mr. Roberts consulted at different times with leading physicians, who told him nothing could be done to restore his hearing, as the natural passage leading from the throat to the inside of the ear had permanently and totally closed up by catarrhal inflammation.

This is the passage that the air passes through sometimes when we attempt to blow the nose but hold nostrils closed and the ear fills with air, causing a puff, dizzy feeling in the head. It is called the eustachian tube. It often becomes obstructed through catarrhal inflammation, but in the case of Chat Roberts the sides had entirely healed together so that all ordinary appliances were useless in endeavoring to force an opening that would be permanent.

Dr. Prentice hit upon the happy method of partially digesting silk worm gut, which, when forced into the opening reaching from the throat to the ear, was allowed to remain. Thus the sides of the newly made opening were prevented from reuniting until all inflammation passed away, after which the partially digested gut became absorbed, leaving a permanent and natural opening again.

Dr. Prentice's ingenious method is well thought of and is being tried with a marked show of success. Dr. Prentice is deserving of the highest encomiums for his intelligence and ingenious methods of research.

A Success!!

After a prolonged European tour, on his return to Virginia City, Nev., Dr. Prentice was greeted by a large number of new patients, who crowded his parlors at the International Hotel to the condition of "standing room only." Among this throng were many old patients who had called to express their gratitude for their successful issue from suffering of various ills and deformities that Dr. Prentice had cured them of during his visit last year. Among this number are many prominent citizens whose names we are not at liberty to mention. A large number of these cases had been badly cross-eyed. Dr. Prentice's treatment has proven eminently successful. Those who had been a flatter from severe cases of catarrh, nervous diseases, hemorrhoids, etc., were loud in their praises of Dr. Prentice's successful treatment in their respective cases. Dr. Prentice's honesty in dealing with patients has made him many warm and lasting friends, as one of his cardinal principles is that if he thinks he cannot cure a case he always tells them so. Such dealings always merit confidence.

J. C. Hampton, one of Virginia's most prominent citizens and owner of the Steamboat canal in this county, is in town.

The demand for real estate in Reno is increasing, and the outlook for many transactions in that line this spring is very favorable.

Judging from the talk in political circles to-day the primary election to-morrow will be hotly contested by interested political aspirants.

Mrs. Mary Hurley, proprietress of a Virginia City lodging-house, died suddenly Wednesday evening while seated at a table eating supper.

The Temperance Convention will meet at the M. E. Church, Reno, on Tuesday, May 1st, and not on Monday as heretofore advertised by mistake.

Carson Tribune: The condition of George Gardner, although critical, is considered more hopeful and the chances are that he will come out all right.

Owing to the "beastly" condition of the weather at Truckee, the Republican announces that "the primary picnic is postponed until July."

George Taylor, Assistant Cashier of the First National Bank, returned this morning from Lodi, California, where he has been taking notes of the boom.

The Banjo King, assisted by a competent company, will appear at the Nevada Theater Monday evening. Secure seats at Davis' cigar store, Commercial Row.

It is never rains but it pours. Last month there was not an amateur theatrical or social club in Reno. Now there are three, and several more are being talked of.

To protect fruit blossoms from frost: Place small pies of manure in different parts of the orchard and set them on fire at night. It gives a little heat and a great deal of smoke.

Curtis still owns the Largomarsino bridge, as Auditor Williams has not yet audited the bill for \$1,600, the amount apportioned by the Commissioners for the purchase of the bridge.

The next social event will be a theater party. It is the intention of the organizers to attend the opening performance of McKiesick's opera house in full dress after which a dance, followed by an elaborate supper, will be indulged in.

Carson Tribune: Messrs. Hamilton and Sharon, who are both anxious to represent Nevada at the Chicago Convention, "have poled their issues" and there will be but one ticket in the field at the Republican primaries in Virginia City to-morrow.

Railway postal clerks and route agents running on California and Nevada railroads are preparing a petition to be forwarded to Pacific slope Representatives in Congress asking that their salaries be increased from \$1,000 per year, the present allowance, to \$1,200 and those of chief clerks on trunk lines to \$125 per month.

The music for the ball of the Daughters of Rebekah last evening was furnished by the Reno Orchestra, Nate Roff manager, and gave universal satisfaction. Many new selections were rendered, which were greatly enjoyed by the dancers. Professor Trenbath of Truckee appeared for the first time as a member of the orchestra. He is a first violinist of merit and will prove a decided acquisition to the musical fraternity of the town.

As a hair dressing and restorative, A. E. Hair Vigor is universally commended. It eradicates dandruff, cures eruptions of the scalp, invigorates and beautifies the hair, and prevents its falling or turning gray.

250 BEAUTIFUL LOTS FOR SALE!

From \$200 to \$600!

A Rare Chance for Investment and a Home.

THE MOST LOVELY PORTION OF RENO.

FACING THE TRUCKEE—THE ARISTOCRATIC RIVERSIDE AVENUE DRIVEWAY—SPLENDID SEWERAGE—HEALTHFUL LOCATION AND SAFE FROM FIRE.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town, this addition faces the beautiful Truckee River, and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is, it is more exempt from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before buying elsewhere, Parties will do well to look at these Lots.
